

## Exposure visit for students of DPS Megacity, Kolkata at ICAR-NINFET

*July 15, 2026, Kolkata*

### **Exposure Visit of Delhi Public School (DPS) Megacity, Kolkata to ICAR-NINFET**

ICAR–National Institute of Natural Fibre Engineering & Technology (ICAR-NINFET), Kolkata, organized an Exposure Visit for the students of Delhi Public School (DPS) Megacity, Kolkata on 15 July 2026 at the Institute.

A total of 16 students, accompanied by two faculty members, participated in the programme. Ms. Ruchira Ghosh, Head, Department of Geography, and Ms. Punnya Guhathakurta, Assistant Teacher, introduced the students to the ICAR-NINFET officials and outlined the objectives of the visit.

Dr. D.P. Ray, Nodal Officer, HRD Cell and Head, Chemical & Biochemical Processing Division, welcomed the participants and presented an overview of the history, mandate, and research activities of ICAR-NINFET. He highlighted the Institute's contributions to natural fibre research, technological innovations, and sustainable development. In his concluding remarks, he encouraged the students to pursue scientific inquiry and innovation through an inspiring and motivational address.

Dr. K.K. Samanta, Senior Scientist and Co-Nodal Officer, HRD Cell, delivered an insightful presentation on the Institute's pioneering research in natural fibres, technological achievements, and various research and development initiatives. He also shared several lesser-known aspects of ICAR-NINFET's scientific contributions, which generated keen interest among the students.

The programme was coordinated by Ms. Jayeeta Choudhury, Senior Technician, HRD Cell, who ensured the smooth conduct of the event.
